

July 1, 2008

Dear Ken:

Thanks for the chance to say a few words about your Titan product.

We've been selling Titan Fuel Tanks now for about four years. I'm happy to say that we have seen a marked improvement in the product over those years.

The best thing about Titan tanks is the ease of installation. The design has been kept simple to make them easy to install. The parts are all included and the Titan tank fits in place of the original stock equipment tank.

I feel Titan also makes a good effort in customer service. We have had good luck when we've needed technical assistance. The five-year warranty is also a plus.

We've had good success with Titan tanks and I would recommend Titan to any of my customers.

Sincerely,

Ron Pfannenstiel
