Dear Ken,

I purchased one of your tanks for my long bed GM truck with Duramax engine and liked the tank just fine. When I heard about your new Super Series tank for my vehicle, which even holds seven gallons more (62 gallons total), I decided to try one and like it even better. I travel a lot and the additional range is important to me. I especially like the longer range with no cans or tanks cluttering up my pickup bed.

I installed the tank myself and love the way it fits so well in the truck. The instructions are good, the kit was complete and the installation was simple. Everything I needed came with the tank.

Also, Titan's service has been excellent. Your staff has done their best and delivery was in a very timely manner.

Our winters here can be challenging and the state uses liquid salt on the roads so corrosion is always a worry. No worry with the Titan. The polyethylene construction assures it will never rust or corrode, inside or out.

I would be happy to recommend your product to everyone who wants to get the most out of their truck.

Sincerely,

Jon Rowles
